EDUCATION

- **University of California - Berkeley** Berkeley, CA
Bachelor of Arts in Data Science; GPA: 3.91 *Expected Graduation: May 2020*

PROGRAMMING SKILLS

- **Languages (Proficient):** Python, Java, R **Languages (Familiar):** Javascript, HTML/CSS, SQL
- **Tools and Frameworks:** Angular, Flask, Git, Bash, L^AT_EX
- **Python Data Science Stack:** Pandas, NumPy/SciPy, SciKit-Learn, NLTK, Keras
- **Relevant Domains:** Computer Programs, Data Structures, Data Science, Machine Learning, Natural Language Processing, Web Development

EXPERIENCE

- **Computational Approaches to Human Learning (CAHL) Lab** May 2017 - Present
 - **Web Developer:** Worked on *AskOski* (askoski.berkeley.edu), a UC Berkeley course recommender system serving the undergraduate student population of 30,000 students. Augmented the content discovery process and browsing experience by designing and building an “intelligent course catalog” search feature into the user interface.
 - **Research Assistant:** Studied the efficacy of lifting machine learning methodologies from other domains into educational contexts to help improve learning outcomes.
- **Stat 89A: Linear Algebra for Data Science** Nov 2017 - Present
 - **Course Developer:** Collaborated with staff members to scale existing infrastructure for the pilot full scale version of the class, as well as prototyped and refined new course materials.
 - **Teaching Assistant:** Guided and mentored students during office hours and section, graded exams.

PROJECTS

- **SafeFront:** A next generation 911 service for both first responders and relief agencies. Built backend service housing image classification and sentiment analysis models processing incoming mobile data for dashboard. Top 30 finish at PennApps XVIII out of 200 teams.
Tools Used: Flask, Google Maps API, Twilio API
- **Spend Friend:** Personal finance manager web app with Amazon Alexa skill. Developed RESTful API service for database storing user info and spending history to display in the front end. Won PayPal Sponsor Prize at Cal Hacks 5.0.
Tools Used: Firebase, Flask, HTML & CSS
- **Personal Productivity and Biometric Data Blog (2014 - Present):** Extensive and ongoing personal case study based on data collected on my life for the past 5 years. Analyzed data for trends in sleep, efficiency, happiness, stress, and more. Wrote articles communicating results revealed by visualizations & statistical analyses and published on personal website.
- **Practical Applications Compilation (2015 - Present):** Collection of interesting real life problems encountered throughout my daily life and academic studies solved through leveraging my technical knowledge.

AWARDS

- **Undergraduate Research Fellow - Summer 2018:** Received a \$6,000 grant to conduct a self-directed research project under the guidance of a faculty mentor. Presented work on learning analytics applications at an undergraduate research conference.
